Professional skills

C# .NET Core/Framework

Azure Cloud Architecture

SQL Server

Azure DevOps

ADO.NET

EntityFramework/ EFCore

NUnit/Xunit for Unit Testing

ElasticIndex, RedisCache

Terraform for IaC

Az CLI

Powershell Scripting

Firebase

Git for Version Control

Java

Android Development with Java

UML Diagrams

Angular

Bootstrap

Employment History

Associate Consultant (Azure Practice) - [Dynamic Elements, Ahmedabad](#)

June 2021 - Present

- Working on .NET Core and Azure technologies for Norwegian Sports Federation
- Regular hands-on with .NET Core 3.0, ServiceFabric services, Azure Functions, ESB, CosmosDB, Storage Accounts, App Service Plans, SQL and more
- Worked directly with clients and with various teams on multiple projects.
- Worked on setting up new projects with build and release pipelines.
- Attended Project Kickoffs and Business Requirement meetings.
- Worked on various Technical Design Documentations and Functional Requirement Specifications including Lucid Chart Diagrams for new requirements
- Experience working with various design patterns like Repository, CQRS, Chain of Responsibility, Mediator patterns and more.
- Developed and maintained various projects based on .NET Core 2.1/3.1 and libraries based on .NET Standard 2.0
- Developed and Maintained RESTful APIs in C# for consumption by front-end applications.
- Worked on libraries that implemented CRUD operations with filters for ElasticIndices read databases.
- Integrated above mentioned ElasticIndex libraries in various projects to maintain separate read databases.
- Worked on Event Firing and Handling mechanisms to handle changes to the database and copy said changes over the ElasticIndex
- Worked on time scheduled services that used Quartz as a scheduler.
- Worked on client for Azure B2C Authentication. Used Angular 12 and Bootstrap 4 for UI and .NET Core for processing.
- Experienced working with ServiceFabric services and Azure Function Apps.
- Worked on transforming the company's entire cloud architecture from a manual process to an automated process using Terraform.
- Presented Demo and did knowledge transfer for Terraform for the clients and colleagues.
- Developed Powershell scripts for fetching details of existing Azure architecture using AZ CLI.
- Worked on multiple POCs including a Notifications POC for WebApps and Azure B2C Authentication POC. Implemented Azure B2C service, Firebase Messaging, Angular 12, Bootstrap 4, .NET Core for RESTful APIs and EFCore with SQL Server.
- Presented Demos for various POC to clients and colleagues.

Awards and Recognition

Going Above and Beyond
(Dynamic Elements) - Q3 2021

Diamond League Best Performer
(Dynamic Elements) - Q2 2022

Certificates

- Microsoft Certified C# Developer (70-486) [2018]
- Oracle Certified Associate Java Programmer (1Z0-808) [2016]

Languages

English

Education

Computer Science
LDRP-ITR, Gandhinagar, Gujarat
July 2013 - May 2017

I finished my Bachelors in Technology in Computer Science with a CGPA of 8.59.

Associate Consultant - Capgemini, Mumbai

October 2017 - June 2021

European Automotive Client

- Worked on micro-services in .NET Core hosted on ServiceFabricCluster on Azure for an Automotive client.
- Handled DevOps tasks including Azure Boards management, Pipeline creation and Deployments.
- Helped onboard new developers on the project for the Automotive client with a walkthrough of the existing micro-services and CI/CD process.
- Involved in requirement gathering meetings and technical discussions.

American Insurance Client

- Worked on transitioning a multi-application stack from traditional on-site servers to serverless on Azure for American Insurance Client.
- Integrating services among Azure Functions, ESB, Table & Blob Storage, SQL Server, EFCore, EntityFramework, Linq, and more for the Insurance Client.
- Involved in working directly with the client side team and also providing valuable inputs and suggestions, often times improving some functionalities.
- Experienced with .NET Core API development with multi-tier architecture & design patterns.
- Experienced in complete Project Lifecycle from Design to Implementation to Integration.
- Involved in Database design, Views and Stored Procedures in SQL Server.

American Finance Client

- Worked on migrating a major application from SQL Server 2008 and IIS 6 to SQL Server 2016 and IIS 10 for another American Finance Client.
- Co-ordinated with a team for creation of an in-house code coverage tool using Java, SpringBoot, MySQL and Angular.
- Familiarity with Agile for fast-paced development process.
- Built a Find and Reserve Utility for internal teams working on Data using SQL Server & Angular.
- Built all the layers of Find and Reserve Utility. User AngularJS for UI and C#.NET, ADO.NET, REST API and SQL Server.

Independent Android Developer, Mumbai

- Efficient in design, development and deployment of applications to Playstore.
- Experience with Jetpack/AndroidX, Room, SQLite databases, ViewModel & LiveData, Services, BroadcastListeners.
- Third party APIs like Firebase (Auth, Analytics and Realtime database), Google Cloud Messaging, Picasso, Glide, ButterKnife and more.
- Published multiple apps in Playstore.

Declaration

I hereby solemnly affirm that all the details provided above are true to the best of my knowledge. I shall carry myself in a manner that lends dignity to the organization.

-Chiranjeev Jain
